

File No. 1501/9/2007-NTCA
NATIONAL TIGER CONSERVATION AUTHORITY
(Statutory Body under the Ministry of Environment & Forests, Govt. of India)

The National Tiger Conservation Authority (NTCA), a statutory body under the Ministry of Environment & Forests, is in the process of photo documenting the attributes of tiger reserves in the country, along with the developmental inputs provided under Project Tiger in various designated tiger reserves in the country.

In this context, the NTCA wishes to shortlist a panel of eminent photographers/agencies with proven track record in still photography using the latest state of the art equipments.

Tasks to be performed

Photo documentation of

- Important flora including trees, herbs, shrubs, grasses and medicinal plants
- Important fauna including main mammals, birds, reptiles and insects
- Habitat including tropical dry deciduous dry teak forest, tropical dry deciduous mixed forest, bamboo brakes, meadows and riverine systems in all the main seasons round the year
- Special features including geographical attributes
- Pressures and impact
- Tourism
- Management practices / inputs

Photographers/agencies interested in undertaking the tasks in tiger reserves of their choice may send their credentials along with details of work experience in sealed cover to the following address by 10th June, 2007 positively:
